OUR OPERATION

Irelands Angus is located in the Kyeamba Valley, Southern NSW. We run 1100 stud and commercial breeding females.

A family owned and operated business, that has been breeding stud Angus Cattle for nearly 30 years.

Selecting on the basis of conformation, structure, growth, fertility and generations of sound genetics, it is our belief that strength of genetics will determine the consistency of the progeny. "The key component to adding profitability to our clients programs".

WHEN AND HOW WE SELL

Irelands market around 350 bulls per year via two On Property auction sales (Autumn and Spring) and once a year into a Spring QLD auction.

The majority of the bulls are sold by private treaty and by contract breeding.

Semen and embryo packages are also available and we do sell females privately by enquiry.

Since 1984 we have selected sires from cow families that are genetically strong and consistent for several generations. These sires have been from USA, Canada, NZ and in more recent years, home bred.

OUR PROGRAM DIRECTION

It is paramount that we provide value for money. Of the 356 bulls we sold in 2012, 85% sold between \$3000 - \$5000. We believe this is affordable for every budget.

We believe, the true test of our breeding philosophy lies in the ability to test and measure genetics, under commercial conditions and have them perform favorably for their clients in their target markets.

- ✓ 350 BULLS SOLD ANNUALLY
- ✓ X 2 ON PROPERTY SALES & 1 QLD AUCTION
- ✓ BULLS SOLD FOR PRIVATE TREATY
- ✓ CONTRACT BREEDING
