2013 SEMEN RELEASE

IRELANDS ANGUS SEMEN RELEASE

Welcome to our 2013 Semen Catalogue.

Due to overwhelming interest in our sires, we have decided to open our semen battery to the industry.

We'd like to thank the people who have invested in our program through the purchase of some of these stud sires, for the opportunity to release these genetics into the industry and to promote such a great group of bulls through this release.

It is our ambition to provide value for money throughout our program, by maintaining strong working relationships post sale through the continuation and development of these genetics.

Our program is strongly focused on structure, soundness, longevity, doing ability and actual performance, balanced with available Estimated Breeding values. At the end of the day we must breed cattle that produce profitable results, under different environmental conditions.

We believe in stacking pedigrees with generations of cow families that have proven their actual performance, longevity and ability. By doing this we have found they build predictability into their progeny.

These sires all derive from strong reliable cow families that have stood the test of time and have consistency in their pedigree.

If you need cattle with good phenotype to bring your customers back year after year, it sometimes takes more than just numbers!

Please feel free to give us a call if you have any further queries.

Happy joining

Corey

VICG43

IRELANDS PLEASURE C4

31/03/2009 | AMFU CAFU NHFU

Sire: Irelands Deltroit D2

Dam: Irelands Pleasure C4(AI)

Dam's Sire: Karoo W109 Direction Z181

An outstanding individual who combines superb phenotype and extraordinary raw data. Galaxy provides an outcross to most and has real strength of pedigree to confirm his performance. A unique young sire who must be considered in your breeding program.
