Sale Information

INSPECTION

We invite anyone interested in the cattle to inspect them before the sale so we can give you the necessary time and information to ensure you are selecting the product right for your program. If you are unable to do so then inspections will be from 10:30am and sale time is 1pm Friday 12 Sepetember 2014. Please phone Corey to make a time suitable to inspect the cattle.

RAW DATA

Scan data was taken 8/7/14 off grass and weights were taken 12/8/14. As close as possible to the sale to provide you with the most up to date information. We value raw data as a performance comparison from within the sale group of bulls.

DELIVERY

No cattle will be delivered on the day of the sale. We will have transport representatives available on the day. It will be our intention to ensure we can help organise the most efficient and safest way to deliver all of the cattle to their new homes. For further information please contact Corey on 0409 182 884.

REBATE

Outside agents that are accompanying a purchaser to the sale are entitled to a 2.5% outside agents rebate. To qualify the agent must register with Ireland's, the agent or in writing or by fax no later than 24 hours before the sale.

HEALTH

The herd is a TB & Brucellosis free herd. The herd is a protected JD herd. All bulls have been tested for Pesti virus and have been treated according to the Zoetis Star program – vaccinated for Vibro. All bulls have been vaccinated with 7in1 and treated with Cydectin.

PHONE BIDDING

If you are unable to make the sale phone bidding can be arranged by contacting the agent or Corey on 0409 182 884.

INSURANCE

We encourage you to insure your purchased lot/s. All care but no responsibility will be taken after the fall of the hammer. It is the purchaser's responsibility for any injury or death. An insurance agent will be in attendance on sale day to cover your requirements.

AIR FACILITIES

Wagga and Albury have airports with daily flights from Melbourne and Sydney. For pick up and drop off please contact either the agents or Corey on 0409 182 884.

CATERING

Complimentary morning and afternoon tea, coffee and cool drinks will be provided on the day and an Angus Beef BBQ before the sale.

ACCOMMODATION

We can arrange accommodation for you either in Wagga Wagga, Holbrook or Tarcutta. Please contact us in plenty of time so we can ensure accommodation.

NUTRITION

The bulls have all been reared under the same conditions. Mid July, we began supplementing the bulls with 3Kg of grain per day and some hay to get them to the sale. We believe it is important to offer bulls in good working order and not overfed, this is important for longevity.

AFTER SALES SERVICE

We are keen to follow our cattle and ensure they are working in your program to achieve the best possible results. We encourage open communication at all times to monitor progress.

For further information please contact: Corey Ireland | 0409 182 884

GUARANTEE

Ireland's Angus Guarantee All bulls have been put through our in-house evaluation process and have been vet checked and fertility tested.

To the best of our knowledge all of the cattle are all in sound working order at the time of the sale. If during the next 18 months, an animal becomes infertile or breaks down due to reasons other than illness, injury or disease contracted after leaving Ireland's, we will:

- 1. Provide you with a satisfactory replacement as quickly as is practical so as to minimise the disruption to your program or
- If a replacement is not available, issue you with a full credit (minus salvage value) for the purchase of any one animal at the next Ireland's sale. In some cases buyers maybe requested to supply a veterinary report.

This guarantee is in addition to normal terms and conditions governing auction sales and as such the vendors decision will be final.

It is important to understand that normal care must be taken and good husbandry practices observed, as we cannot replace an animal that is injured or dies for any reason. As such, we recommend you insure animals against injury.

DISCLAIMER

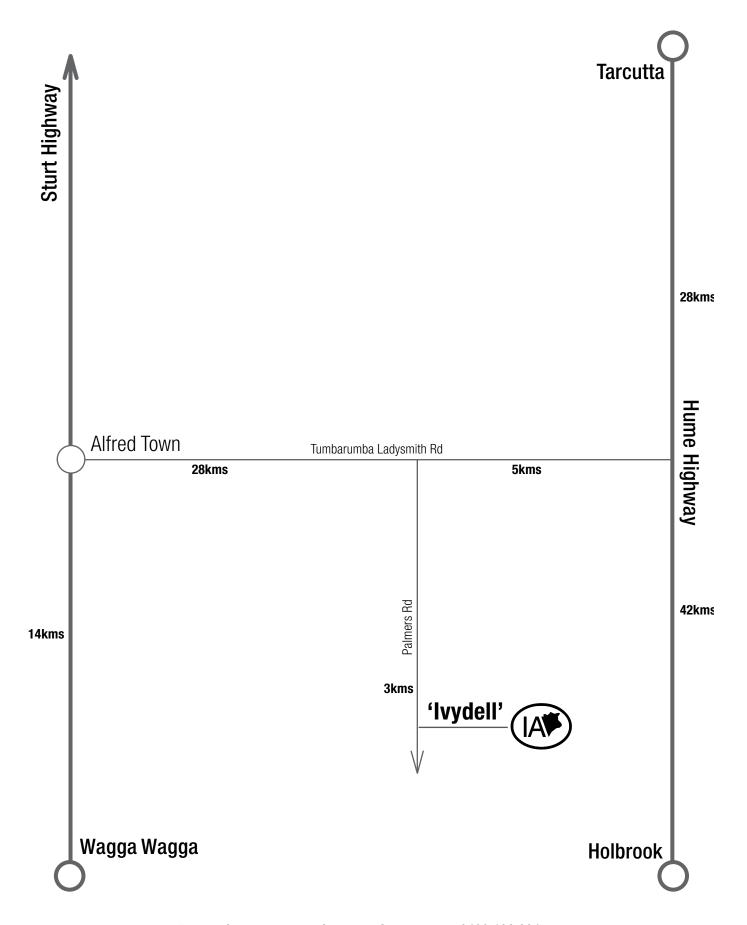

Whilst all due care and attention has been paid to accuracy in the compilation of this catalogue and the information neither the vendors, selling agents or representatives thereof assume any responsibility what so ever for the correctness, use or interpretation of the information of animals included herein.

Bringing home your new bull What to consider

When purchasing and taking delivery of your new bull there are some points we think are very important to note to ensure a smooth transition.

- 1. All of our bulls have been selected for good quiet temperament. This is absolutely paramount as our youngest staff member is 7 years old.
- 2. Sale day is not a normal day in the life of a bull. It is in fact quite different to anything they have experienced. There is a lot of pressure applied to bulls on sale day which can from time to time cause some anxiety. We need to be aware of this situation.
- 3. All of our bulls are run in large mobs and never have our bulls ever been run on their own. They are used to others around them all the time.
- 4. Our bulls have been worked with horses and motor bikes. We do not yell in the yards when handling them or rush.
- 5. When your new bull arrives home it is always a great idea to have other cattle in the yards so they have some friends when they are unloaded, as again most of our bulls have not been on a truck before so it's a new experience.
- 6. Take time with the bulls, let them settle in, throw them a bit of hay and let them get used to their new home. This will make life easier for you and your new bull.

How to find Us

Welcome to Irelands Angus

Dear Beef Producer,

Welcome to our 2014 Spring Bull sale.

This Spring we have changed our offering from all 18 month old bulls to 25 two year olds and 25 18 month old bulls due to client request. We hope that this can help to assist you in your bull requirements.

The success of our program we determine by the success of our clients. What we have noticed in particular this past year is the ability for our cattle to perform in so many different environments, being from the Snowy mountains to far Western Queensland.

We are so pleased to offer a great draft of bulls this Spring including the first sons of NZ sires Cricklewood Cracker and Atahua Freedom along with the first sons of Granite Ridge Thomas.

Our bulls have performed well with some really pleasing raw data results and consistency throughout. The bulls have performed well considering the difficult seasonal conditions which their lives began but have done very well due to us experiencing an "Autumn". This group of sale bulls have been running on pasture and oat crops and have only been supplemented when the weather turned cold at the end of July.

All the bulls are soundness and fertility tested. The bulls have also been tested negative for Pesti and have been treated in accordance with the Zoetis star program (Vibrio, 7in1, pesti vaccinated).

We would like to take the opportunity to thank you for your interest in our program and cattle. We thank all of our team for their continued commitment and efforts and the clients who continue to support our program year in year out. We hope you enjoy the cattle, sale and hospitality. We wish you the best for Spring 2014.

Cheers,

Corey

Notes: What an impressive young sire. This fellow has stud potential in my eyes. He is long, correct, clean fronted and easy doing. His pedigree is out standing being by Edmund E11 who has bred so well all over the country and his dam is the dam of our international sire Irelands Fletcher F1. This fellow is a maternal brother to Fletcher and is every bit as good in my opinion. Dont miss him.

Notes: Our first Cracker 399 bull to be offered for sale. We purchased Cracker for his overall power, soundness and softness and has he delivered. I was disappointed that in our first group of calves they were all heifers but now as they are springing to calve I am extremely excited, they look amazing. This fellow is just so soft and long. His dam is a great old cow who just delivers the good each year and this fellow is no exception.

Notes: One of the last Zulu Z20 bulls to be offered. Zulu has bred just so well for us. His daughters are standout breeders. This fellow has the frame and bone you love yet is thick topped and the soft easy doing type. His dam is a great cow who has bred so consistently. She is a big angular cow with heaps of milk.

Purchaser:	r .
T UICHASCI	

Heifers are the future of your herd. They hold the genetic potential of your operation. That's why it's important to protect them from Pestivirus. It's well known that Pestivirus can reduce your reproductive

performance. Just a small drop in conception and calving rates can have a significant impact on your bottom line. That's why you should vaccinate all heifers with Pestigard. Vaccinate twice within 6 months, prior to joining, to get the best reproductive performance from your heifers.*

Protect your heifers potential. Vaccinate with Pestigard.

Notes: Our first Thomas F223 son to be offered for sale. He is just so impressive. Long, thick, soft and sound. Wow, what more can I say. His dam is my pick of the entire Geramy herd as her ability to breed is second to none. She has never had a bad calf and that is consistency. We retain the right to collect semen for within herd use only.

ATTENTION BUYERS!

Irelands Angus aim to maximise the reproductive integrity and health of their stud stock by adopting the Pfizer STAR program – this is **S**teps **T**aken **A**gainst **R**eproductive disease.

Each Pfizer STAR certified animal (bull/heifer) in this catalogue has been

- Tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected (PI) animals
- Vaccinated against BVDV to ensure they are protected to the effects of this infection
- Vaccinated against Leptospirosis, a potential reproductive and OH&S risk for cattle handlers
- ❖ Vaccinated against Vibriosis, a sexually transmitted cattle disease
- Given 2 vaccinations to ensure they have immunity established prior to leaving these premises
- ❖ Issued with a Pfizer STAR certificate valid for 12 months

You can be confident that every step has been taken by Irelands Angus to ensure that these animals presented for sale will not introduce preventable reproductive diseases into your herd.

Notes...

Let us put your business in the spotlight!

CONGRATULATIONS

HURLEY FAMILY PARTNERSHIP

Valued Irelands clients, sold 300 mixed sex weaners (9-11 Mths) at the Bill Wyndham & Co sale, 5th August 2014 in Bairnsdale, with the top pen making \$780 a head.

BOSS HOGG joins the (**) Sire Team

We have been fortunate to secure the Australian semen rights for Rawburn Boss Hogg. He is a Scottish bred bull from an imported embryo from the USA. His structural soundness combined with his carcasse attributes and softness make him a great fit for our program.
